

## **Nurun Application:** Microgrids and Rural Electrification

**Affordable and  
reliable energy**

**Saudi  
Made**

**Addresses 12 out  
of 17 UN SDGs**

**Empowering small  
communities**

**Green energy  
solution**

### **ABOUT SAHARA MINIGRID SOLUTION**

Sahara containerized solar generation systems enable the development of remote household and small industrial platforms to provide clean, safe, and affordable electricity to communities that are currently not connected to the national electricity grid, increase business productivity by replacing generators, and providing universal access to energy, water, and data.
